Table of Contents: Volume 3 (1993)

Number 1

Push: An Experimental Facility for Implementing Distributed Database Services in Operating Systems ..... *Bharat Bhargava, Enrique Mafla, and John Riedl* 5

Prescheduling Policy for Real-Time Concurrency Control: A Performance Evaluation ..... *S.M. Tseng and Y.H. Chin* 23

Integration of Petri Nets and Moment Generating Function Approaches for System Performance Evaluation ... *MengChu Zhou, Dianlong Guo, and Frank DiCesare* 43

Fault Tolerance in Partitioned Manufacturing Networks ..... *Anders Adlemo and Sven-Arne Andréasson* 63

Number 2

Principles for Principals ..... *David R. Israel* 91

A Unified Formal Basis for the CASE Tools System ..... *C.S. Tang* 103

Structural Integration: Concepts and Case Study ..... *J. Geller, Y. Perl, P. Cannata, A. Sheth, and E. Neuhold* 133

On Research Issues Regarding Uncertain Query Processing in an Office Document Retrieval System ..... *Qianhong Liu, Jason T.L. Wang, and Peter A. Ng* 163

Numbers 3/4 (***Special Issue: Managing Large-Scale Software Systems and Integration***)

Introduction ..... *Peter A. Ng and Raymond T. Yeh* 199

Management of Enterprise-Wide Systems Integration Programs ..... *Kenneth C. Hoffman* 201

A Meta-Process Model for the Planned Development of Integrated Systems ..... *Wilhelm Rossak, Tamar Zemel, and Harold W. Lawson* 225

A Process Model for Interactive Systems ..... *W. David Hurley* 251

Layered Specifications to Support Reusability and Integrability ..... *Roland T. Mittermeir and Evelin Kofler* 273

Understanding Integration in a Software Development Environment: Issues and Illustrations ..... *Alan W. Brown, Kurt C. Wallnau, and Peter H. Feiler* 303

Representing Navy Tactical Computer System Knowledge for Reengineering and Integration ..... *Bruce I. Blum and Tamra Moore* 331

Large Scale Interoperability and Distributed Transaction Processing ..... *John A. Mills* 351
